

FUNCTIONAL TEXTILES & CLOTHING CONFERENCE

9th-11th Feb, 2018, NEW DELHI, INDIA

Poster No.	Reg ID	Name	Poster Title
1.	96	Manisha Yadav	Agro waste as a source of absorbent for hygiene applications.
2.	56	Kaushal V Shah	Graphene oxide: - A technological revolution in textile fashion & smart textile.
3.	100	Dragana Kopitar	Comfort & microbial properties of different textile raw materials & structures.
4.	100	Dragana Kopitar	Thermal resistance of leather and membranes for summer desert military footwear under different climate conditions .
5.	23	Ivana Schwarz	Military woven fabrics from the aspect of the microbial barrier permeability .
6.	23	Ivana Schwarz	Influence of citric acid & ultrasound on silk degumming.
7.	12	Indre T Stankuviene	Abrasion resistance of woven fabrics with linen/silk yarns.
8.	223	Fahimuddin S Sayyed	Cost effective alternative to conventional textile print media.
9.	166	Anjali Srivastava	Optimization of extraction and dyeing condition of a dye obtained from leaves of Ocimum sanctum (Indian Basil).
10.	143	Nitika Singhal	Antimicrobial efficiency of ratanjot dyed cotton fabric as potential medical textiles.
11.	149	Priyal Dixit	Application of STF impregnated ZnO nanorods modified Kevlar Fabric for Enhanced Impact Energy Absorption.
12.	111	Raman Sandhoo	Polyurethane/ceria nanocomposite based coated textile with enhanced weather resistance property.
13.	69	Rashi Agarwal	Visualization & quantitative assessment of stains on fabrics .
14.	163	Veerendra Kumar	Antimicrobial Non-Woven Fabric for Safe Water Filtration.
15.	145	Sadiya Anjum	Biocompatible & Biofunctional Finishing of PP Fabric for Human Healthcare.
16.	37	Karthick Kaliappan	Replacing Aloe vera fibre for wound dressing & to give sericin finish to wound dressing.
17.	240	Ramakrishnan Govindan	Development of Kenaf-Cotton blended fabric for sustainable textile applications.
18.	118	Aditi Dhama	Extraction and analysis of cellulosic fibre from corn husk.
19.	219	Awadhesh K Choudhary	To study the engineering properties & drape behaviour of fused fabrics.
20.	N/A	Chetna Verma	Conjugation of lecithin with biopolymers.
21.	184	Pratibha Thapa	Eco friendly dyeing and Anti microbial finishing on textiles.
22.	169	Priyanka Bharti	Innovation, sustainability and design integration of the fashion & textile industry products for the future.
23.	201	Ananya M Pramanik	Waste Management Through Design.
24.	146	Isobel K Williamson	'Durable Loops': Strengthening hand knitted cellulose fibres with sodium alginate for use in functional crafting.
25.	216	Srishti Tanwani	Empathic Design: a boon for sustainable fashion.
26.	27	Kanika Jolly	Kinematic Motion Analysis of a Motorcyclist for design of ergonomic clothing.
27.	214	Paramita Sarkar	A study on introducing the concept of sustainable design to young design students.
28.	154	Srivani Thadepalli	An Exploratory Study of the Consumer Preference for Shapewear.
29.	126	Swati Sabharwal	Establishment of sorting criteria of post consumer textile waste for product development- An exploration.
30.	83	Kundlata Mishra	Design solution for Protective Clothing: a functional synergy with aesthetics & comfort.
31.	157	Megha Gupta	Development of Training Modules for Visually Impaired for Rehabilitation in Garment Manufacturing Units.
32.	173	Tulasi Kumar Nanda	A Strategy to introduce handloom apparels in big retail chains & e-commerce with proper Marketing Technique.
33.	98	Sheena Bansal	To study the bending behaviour of fused fabrics with varying parameters of fusible interlinings & body fabric.
34.	153	Neha Jain	Ergonomics Design: Principles for workstation enhancement of clothing usability.
35.	254	Swapnil Pateria	Fashion Merchandise- An opportunity for sustainable future.
36.	217	Priti Srivastava	Future of Sustainable Textiles: Organic Cotton vs Bamboo Fibres.
37.	129	Priyanka P Panchal	Effect of Durable Press Finish on Plain,Twill & Sateen weave on Cotton.
38.	164	Nilima R. Topno	Future of OLEDs technology in wearable textiles.
39.	171	Loga P Chinnasamy	Advancement in gloves.
40.	158	Nitesh Dubey	Extreme sports & military application.
41.	106	Ramratan	Smart high performance fibres & design for the sportswear fabrics.
42.	142	Rutuja A Khedekar	Medical Textile-Compression Bandages.
43.	45	Brindha R	Sustainable technology for oil spill cleanup pads.
44.	208	Prerna Jain	Reverse logistics of Pre & Post Consumer Textile Waste in Delhi/ NCR.
45.	82	Shubhra Singh	Moving Lights as Moving Spaces.
46.	124	Sameer A Memon	Textile Antenna.
47.	213	Chavi Goyal	A study on designing & construction of sportswear for orthopaedically disabled Basketball Athletes (wheelchair).
48.	210	Jigisha Tiwary	Designing and Construction of Adaptive Clothing for orthopaedically disabled children.
49.	202	Abdullah al Rumon	Fabric based touch sensitive pressure sensor.
